Financial Education

Program Leader

Andy Mayer has over 14 years experience as a trader and manager in the investment banking industry. He began his career in London with NatWest Global Financial Markets, and worked for Credit Agricole and Morgan Stanley before moving to Asia in 2010. His most recent banking role was running the Asia FX derivatives department at CIBC Hong Kong.

Andy has a BSc from the University of Durham, England and an MSc in mathematical modelling from Edinburgh University, Scotland. He holds a diploma in technical analysis (distinction) from the Society of Technical Analysts.

Technical Analysis – An Introduction

Introduction

Technical Analysis or charting is one of the most commonly used tools for trading any financial product. It is essential for traders and investors to know at least the basics and preferably much more if they want to keep up with the competition. This course is an introduction for those who are completely new to the world of technical analysis.

Who the course is for

- Graduate Trainees
- Students
- Traders
- Investors
- Bank sales people
- Anyone new to Technical Analysis

Learning outcome

Upon completion of the course, students will have an understanding of what technical analysis is, why it's important and how to learn more.

Technical Analysis – An Introduction
