## Financial Education

### Program Leader

**Andy Mayer** has over 14 years experience as a trader and manager in the investment banking industry. He began his career in London with NatWest Global Financial Markets, and worked for Credit Agricole and Morgan Stanley before moving to Asia in 2010. His most recent banking role was running the Asia FX derivatives department at CIBC Hong Kong.

Andy has a BSc from the University of Durham, England and an MSc in mathematical modelling from Edinburgh University, Scotland. He holds a diploma in technical analysis (distinction) from the Society of Technical Analysts.

## Technical Analysis – Elliott Waves and Fibonacci Retracements

### Introduction

Technical Analysis or charting is one of the most commonly used tools for trading any financial product. The teachings of Ralph Nelson Elliott are amongst the most influential in financial charting and his famous Wave Principle is essential knowledge for all technical analysts. This course is suitable for those new to technical analysis or those with some knowledge of the subject.

### Who the course is for

- Traders
- Investors
- Bank sales people
- Graduate Trainees
- Students
- Anyone new to Technical Analysis

### Learning outcome

Upon completion of the course, students will have a thorough understanding of Elliott Waves and Fibonacci Retracements, and how to use them to understand and profit from the markets.

# Technical Analysis – Elliott Waves and Fibonacci Retracements

## Learning Techniques

Participants will be taught one module per session and their knowledge will be tested regularly during the course to track progress. There will be group exercise work to practice real-life skills and inter-group presentations to share lessons learnt.

## Language

English

## Number of participants

Up to 20

## Duration

One full day, or four evening sessions of one and a half hours each.

## Course content

- What is an Elliott wave?
- Elliott wave personalities
- Elliott wave rules
- ABC corrections
- Elliott wave practice
